will always win out in competition with antiquated methods. Up-to-date stock will always secure the biggest business when in competition with old-dashioned goods. Especially is this true of clothing and shoes. It sort of narrows down to the survival of the fittest.

TAILOR-MADE CLOTHING

(The only kind we handle) is rapidly taking the place of the ordinary sweat-shop stuff (the kind we don't handle.) We are escentially up-to-date in our merchandise. Ferry article that leaves on thome is sold with the object in view that the purchaser has value received—and that is the reason we do not have to resort to the clap-thap advertisements so many of the clothing people nowadays must avail themselves of to bring people to their stores. We claim you cannot go away from home and do as well as with us; our best winesses are those who try it. Don't overlook our
